Item 8.01. Other Events.

Teucrium Trading, LLC, as sponsor (the “Sponsor”) of Teucrium Commodity Trust (the “Trust”), hereby reports that the number of outstanding shares of the 7RCC Spot Bitcoin and Carbon Credit Futures ETF (the “Fund”), a series of the Trust, has reached the minimum level of 50,000 Shares (i.e., five baskets of 10,000 Shares each).

As disclosed in the Fund’s Prospectus under “Creation and Redemption of Shares — *Suspension or Rejection of Redemption Orders*,” the Sponsor reserves the right to reject a redemption order if the number of Shares being redeemed would reduce the remaining outstanding Shares below 50,000 Shares, unless the Sponsor has reason to believe that the placer of the redemption order does in fact possess all the outstanding Shares of the Fund and can deliver them. Accordingly, the Sponsor will reject redemption orders that would cause the Fund’s outstanding Shares to fall below this minimum threshold until there are additional creation orders that increase the number of Shares outstanding.

Investors should be aware that market makers may be less willing to purchase Shares in the secondary market under these circumstances, which can lead to wider bid-ask spreads and reduced liquidity for Shares trading on NYSE Arca, which may cause the price of Shares to deviate more significantly than usual from the Fund’s NAV per Share.

Investors should read the Fund’s Prospectus, including the risk factor entitled “*If a minimum number of Shares is outstanding, market makers may be less willing to purchase Shares in the secondary market which may limit your ability to sell Shares.*” and the section entitled “Creation and Redemption of Shares — *Suspension or Rejection of Redemption Orders*,” for additional information regarding these matters. Capitalized terms used but not defined herein shall have the meanings assigned to them by the Fund’s Prospectus.
