**Item 8.01. Other Events.**

The investment objective of the Teucrium Wheat Fund (the "Fund") is to have the daily changes in the net asset value of the Fund's shares reflect the daily changes in the wheat market for future delivery as measured by a "Benchmark." The Benchmark is a weighted average of the closing settlement prices for three specified futures contracts that are traded on the Chicago Board of Trade (the "Benchmark Component Futures Contracts").

The Fund will continue to invest in Benchmark Component Futures Contracts. However, in order to comply with regulatory requirements or in view of conditions in the wheat market (including a potential lack of liquidity in the futures market for the Benchmark Component Futures Contracts), the Fund may invest in wheat futures contracts other than the Benchmark Component Futures Contracts or in swap agreements, forward contracts and options. These investments may impact the Fund's performance and its ability to track the Benchmark.

The Fund's portfolio holdings as of the end of the prior business day are posted each day on the website: [www.teucrium.com](http://www.teucrium.com).
